# **UV Sterilizer Box** User manual (Eng)

It is recommended to read this user manual carefully and keep it for future reference.

#### Introduction:

This product emits type Cultraviolet light to a wavelength of 270-280nm. The light has invisible radiation which eliminates microorganisms and bacteria on surfaces, making them safer for daily use.

It is important to take into account that there are many types of microorganisms and bacteria which have different levels of resistance to radiation from UV-C light. For this reason, each type needs to be exposed to different levels of radiation for different times

The levels of radiation emitted are not harmful for humans. though contact with skin and eyes should be avoided.

#### Specifications:

- UVC Light: 2x0.5W
- UVA Light: 1x0.2W
- Wavelength: 270-280nm
- Voltage: 5V DC 1A
- Exposure time: 5 and 10 minutes
